PROFESSIONAL SUMMARY:

Enthusiastic Full Stack Developer fresher with a strong foundation in frontend and backend development. Seeking an entry-level opportunity to build responsive, scalable, and user-friendly web applications. Eager to apply technical skills, solve real-world problems, and contribute to a growth-oriented team.

ACADEMIA:

- **B.E. Computer Science and Engineering** – Mahendra College of Engineering(Autonomous), Salem
  CGPA: 7.72/10 - Expected : 2027
- **Higher Secondary (12th)** – The Gugai Higher Secondary School, Salem
  70% (2023)
- **Secondary School (10th)** – The Gugai Higher Secondary School, Salem
  Merit (2021)

SKILLS:

- **Programming Language :** Java ,Python.
- **Backend & APIs:** Spring Boot, REST APIs, Hibernate
- **Web Technologies:** HTML, CSS, JavaScript
- **Database:** Basic SQL

INTERNSHIP EXPERIENCE:

Frontend Development Intern | Ematix Embedded & Software Solutions Pvt. Ltd. | *June 2025*

- Developed responsive web pages using **React.js, HTML, CSS, and JavaScript**.
- Built reusable UI components and improved user interface responsiveness.
- Collaborated on frontend development tasks and gained hands-on experience in modern web development practices.
- Participated in debugging, testing, and implementing interactive web features.

Artificial Intelligence Intern EdiGlobe | *Aug 2025 – Oct 2025*

- Worked on AI-based minor and major projects involving data preprocessing and machine learning concepts.
- Applied Python and AI techniques to develop practical solutions for real-world problems.
- Improved problem-solving, analytical thinking, and model implementation skills.
- Collaborated with mentors to complete project deliverables and gain practical AI development experience.

PROJECTS:

SkillBridge – Skill Exchange & Learning Platform
React.js | Java | Spring Boot | PostgreSQL | REST API | JWT | WebSocket | STOMP | Hibernate/JPA

- Developed a full-stack skill exchange platform using React.js and Java Spring Boot to match users based on teaching and learning skills.
- Implemented JWT authentication, role-based access control, RESTful APIs, and secure user authorization using Spring Security.
- Developed real-time one-to-one messaging using WebSocket and STOMP, including connection-based chat and message persistence.
- Designed PostgreSQL database entities and relationships for users, skills, skill categories, connections, and messages using Hibernate/JPA.

Artificial Intelligence Projects (Minor & Major)

- Major Project: Wind Turbine Power Prediction – GreenWatt Energy Solutions: Developed a machine learning model for forecasting wind turbine power output using operational and environmental data to improve energy efficiency.
- Minor Project: Predictive Modeling for Click-Through Rate Optimization – ConnectSphere Digital: Built a logistic regression model to predict user click behavior and optimize digital advertising campaign performance.

CERTIFICATIONS:

- Completed an Internship in **Frontend Development** at **Ematix Embedded and Software Solutions Pvt. Ltd.,** where I gained practical experience in developing responsive and user-friendly web interfaces
- Participated in the "**Gen AI-2025**" Workshop conducted by **Kongu Engineering College**, Perundurai, focusing on the fundamentals and applications of Generative Artificial Intelligence.
- Successfully completed a Diploma in Computer Applications (DCA), gaining knowledge in computer fundamentals, MS Office and application software.
